

Technical Workshop

Academic High Altitude Conference

Ethan Harstad Matthew Nelson

Stratospheric Ballooning Association

June 23-24, 2014

- 1 Getting Started
 - What is mbed?
 - mbed.org
 - Nucleo Development Board
- 2 The Bare Minimum
- 3 Your First Program
- 4 Taking Control
- 5 Talking to mbed
- 6 Writing Modular Code

The mbed platform is a collection of open source hardware and software to allow rapid ARM based prototyping

- Professional online compiler lets you work from any computer
- Integrated version control system lets you easily find and use libraries
- CMSIS based APIs let you work high level or bare metal
- Hardware abstraction layer insulates your application from hardware changes

Essentially a high performance Arduino with highly integrated tools to save you time!

Register on mbed

- 1 Navigate to <http://www.mbed.org>
- 2 Click the green "Login or signup" button
- 3 Click the "Signup" button
- 4 Follow the prompts
- 5 Confirm your e-mail address

Everyone should have an mbed account. You can create a team to share code between members of your organization.

Nucleo Development Board

The Nucleo development board combines a USB programmer with a powerful STM32 processor and Arduino compatible headers

- ARM Cortex-M4 with FPU at 84 MHz
- 512 KBytes of flash memory
- 12 bit ADC at 2.4 Msp/s with up to 10 channels
- Up to 3xUART, 3xI2C, 4xSPI interfaces

Add Nucleo to Your Account

- 1 Connect your Nucleo to your computer
- 2 Open the external drive the connects
- 3 Double click the mbed.htm file
- 4 Click "Add to your mbed Compiler"

Note

You only need to do this once per account!

Program Structure

Outline

- 1 Getting Started
- 2 The Bare Minimum
- 3 Your First Program**
 - Digital Output
 - While Loops
 - Waiting
 - Compiling
- 4 Taking Control
- 5 Talking to mbed
- 6 Writing Modular Code

Outline

- 1 Getting Started
- 2 The Bare Minimum
- 3 Your First Program
- 4 Taking Control**
 - Variables
 - Digital Input
 - Conditional Statements
- 5 Talking to mbed
- 6 Writing Modular Code

Outline

- 1 Getting Started
- 2 The Bare Minimum
- 3 Your First Program
- 4 Taking Control
- 5 Talking to mbed**
 - Serial Ports
 - Switch/Case Statements
 - Functions
 - For Loops
- 6 Writing Modular Code

Outline

- 1 Getting Started
- 2 The Bare Minimum
- 3 Your First Program
- 4 Taking Control
- 5 Talking to mbed
- 6 Writing Modular Code**
 - Analog Input
 - PWM Output
 - Classes
